## TO REDRAFT A NEW MEASURE

House Sub-Committee Is Given  
Anti-Pass Bills.

WOULD INDORSE ROOSEVELT

Kerry Conley of Rochester Presents  
Resolution Approving All the Work  
of the President and Especially  
That Relating to the Secret Service.  
Technical Manual Training School  
Building Desired for Farm School.

St. Paul, Jan. 27.—The anti-pass  
amendments were given another  
hour's discussion by the house rail-  
road committee and after various mo-  
tions they agreed to leave the three  
bills on that subject to a sub-commi-  
tee to redraft into a new bill.

There was a general disposition  
among the committee to allow fire-  
men, policemen, mail carriers, health  
officials and members of the salvage  
corps to ride free on the street cars,  
but W. D. Washburn, Jr., called the  
attention of the committee to the fact  
that the way the bill was worded it  
would open the way to firemen and  
policemen to ride on the railroads  
also, not only the officers in the cities  
but the members of volunteer fire de-  
partments in the country.

He wanted to know if the author  
and supporters of the bill intended  
this and they said they thought the  
bill would be unconstitutional if it  
were worded otherwise. He said that  
he feared this was an opening wedge  
for the repeal of the whole principle  
of the anti-pass law. A number of  
the country members agreed with him  
and said they were opposed to allow-  
ing this class of people to ride on the

steam roads on passes. Some  
members thought that members of a  
fire department should be allowed to  
ride free on the railroads, as it often  
happens that they are called to assist  
in putting out a fire in another town.  
Washburn replied that the old bill  
allowed people to ride free in case of  
accidents and casualties.

To Indorse Work of Roosevelt.

Kerry Conley of Rochester set the  
house smiling when he offered a reso-  
lution indorsing all the work of the  
president and especially his work re-  
lating to the secret service. J. D.  
O'Brien of St. Paul gave notice of de-  
bate and the resolution went over for  
a day.

C. J. Swendsen of St. James offered  
in bill form a memorial to President  
Elect Taft urging him to call a spe-  
cial session of congress as soon as  
possible after March 4 to revise the  
tariff.

George Mackenzie of Gaylord wants  
the legislature to memorialize con-  
gress to invite the commercial powers  
to establish an international clearing  
house in some one of the Northwest-  
ern states.

A bill by Senator J. M. Hackney of  
St. Paul provides for \$200,000 for a  
technical manual training school  
building for the farm school. The bill  
asks for money in addition to what is  
carried for the same institution in the  
general appropriation bill for the uni-  
versity.

S. B. Bedford of Rushmore present-  
ed his bill providing for the thorough  
cleansing and fumigating of all bot-  
tles, barrels and similar packages  
which are used a second time to con-  
tain food. Milk bottles and ice cream  
cans will come within this law if the  
bill passes.

Senator Works of Mankato intro-  
duced a bill permitting a hunter to  
kill one moose a season, without re-  
gard to sex. The present law permits  
only one male moose to be shot.

Caused Lively Discussion.

The house argued at some length  
on the question of requiring an edu-  
cational qualification for judges of pro-  
bate. The question came up in the  
discussion of the bill resubmitting the  
constitutional amendment for an edu-  
cational qualification for county su-  
perintendents and L. C. Spooner of  
Morris offered an amendment adding  
judges of probate to the bill.

There was a lively discussion. Some  
of the members said they would vote  
out the lawyers and elect men with  
horse sense to the jobs. Some said  
that if this became law some good-for-  
nothing lawyers who could not earn  
their salt otherwise would be the only  
ones that would run. The lawyer  
members stood up for the amendment  
but finally agreed that it might  
jeopardize the passage of the county  
superintendent's measure and agreed  
to let it go and put it in a separate  
bill.

Under a bill introduced by John  
Holten of Fertile, candidates at pri-  
mary elections must have 30 per cent  
of the party's vote at the last general  
election before they can be declared  
nominated.

Ten cents per ton is the tax A. K.  
Ware of Northfield would impose upon  
iron ore mined in the state.

Two insurance bills were introduced  
in the house. Ole Peterson of Nicol-  
let county introduced a general bill  
codifying and simplifying the laws re-  
lating to township mutual insurance  
companies. The bill has been drawn  
by the insurance department.

John Stence of Le Sueur introduced  
a bill requiring fraternal insurance  
associations to collect rates based upon  
the National Fraternal congress mor-  
tality tables.

Layman's Missionary Campaign.

A national campaign has been deter-  
mined upon by the executive commit-  
tee of the layman's missionary move-  
ment to be carried on by means of a  
series of public meetings for men in  
all of the more important cities of the  
United States during the winter of  
1909-10. The initial series will be  
held in Washington and will be par-  
ticipated in by the president and by  
many public men. The concluding  
convention will be held in Toronto  
March 31 to April 4. A world's con-  
vention is to be held in Edinburgh in  
June, 1910.

Tablet to Elihu Root.

At the usual monthly meeting of the  
governing board of the international  
bureau of American republics held  
the other afternoon in Washington a  
decision was reached to erect a tablet  
to Elihu Root, secretary of state, in  
the new building of the bureau, now  
under construction. This tablet is to  
commemorate the work done by Sec-  
retary Root in opening up a new era  
of good feeling and friendly relations  
between the Latin-American countries  
and the United States during his tour  
of those countries and during the third  
pan-American conference.

## RUNNING FAST THROUGH FOG

Charge Made Against Sunken  
Steamer Republic.

QUARTERMASTER NOT BLAMED

Report That the Captain of the Flori-  
da Struck the Man Is Denied—Cap-  
tain Sealby and Operator Binns  
Given an Ovation in New York.  
Eugene Lynch of Boston Dies in  
Hospital.

New York, Jan. 27.—Features of the  
day in the aftermath of the Nantucket  
collision, which resulted in the loss  
of the White Star liner Republic, the  
serious damaging of the Italian liner  
Florida, the death of six persons and  
the injury of several others, were the  
honors extended to Captain L. Sealby  
and Wireless Operator Jack Binns of  
the Republic, and a statement by the  
Florida's people as to how the colli-  
sion occurred.

The White Star people promise  
their version of the cause of the colli-  
sion soon.

The day began with the landing at  
the White Star pier of Captain Sealby  
and Operator Binns. A big crowd  
awaiting them cheered the men heart-  
ily, while a score of enthusiastic ad-  
mirers tossed the men to their should-  
ers and thus carried them to the stea-  
mship offices on the floor above.  
Here the captain and Binns held a re-  
ception, receiving the congratulations  
of scores of callers and here Captain  
Sealby modestly told the story of how  
he stood by his ship until she sank  
beneath him. Later Captain Sealby  
and Operator Binns, accompanied by  
Captain Ransom of the Baltic, went  
to the White Star offices on lower  
Broadway, where another great crowd  
met them and the ovation was re-  
peated.

On the Brooklyn water front at  
Bush's Stores, the Florida, which  
rammed her nose into the Republic's  
side with such force as to give that  
ship what proved her death blow, was  
the scene of much activity. Her sea-  
men were clearing away the debris  
and making her shipshape, so that  
she might go into dry dock for repairs.

Running at High Rate of Speed.

Captain Rospini declined to make any  
statement as to the cause of the colli-  
sion, but after a conference with  
Representatives of C. B. Richards &  
Co., his agents, and Archibald Thatch-  
er, an admiralty lawyer, Richards &  
Co. gave out a statement regard-  
ing the circumstances of the collision.  
Its feature was the direct charge that  
the Republic was running at a high  
rate of speed through the fog. It also  
refuted reports that the quartermas-  
ter of the Florida was to blame and  
that the captain struck the man.

A sad incident of the day was the  
death of Eugene Lynch of Boston in  
the Long Island hospital at Brooklyn.  
He succumbed to the serious injuries  
he received when the Florida crashed  
into the Republic's side just where  
his stateroom was located. His wife,  
who was with him, was killed instan-  
tly. Her body and that of W. J.  
Mooney, a banker of Langdon, N. D.,  
were encased in metallic caskets and  
went down with the Republic when  
that ship sank Sunday night near No  
Man's Land.

The others injured in the collision,  
including Mrs. M. F. Murphy of Grand  
Forks, N. D., who was most seriously  
hurt, are reported as recovering in the  
hospitals here to which they were  
conveyed.

The produce exchange at a special  
meeting here adopted a resolution  
heartily favoring such international  
legislation as will compel the equip-  
ment of all ocean going passenger  
steamers with systems of wireless  
telegraphy, this in view of the im-  
portant aid rendered by wireless tele-  
graphy in the Nantucket disaster.

## FRANKHAUSER IS GUILTY

Train Robber Must Go to Prison for  
Life.

Helena, Mont., Jan. 27.—George  
Frankhauser was found guilty of rob-  
bing a Great Northern train, extract-  
ing \$10,000 from the registered mails  
and placing the lives of the custodians  
in jeopardy by the jury in the federal  
court here and he will be sentenced  
by Federal Judge W. H. Hunt on  
Thursday. Under the law he must  
serve the rest of his life in a federal  
prison at hard labor.

Count Komura Not Dead.

Tokio, Jan. 27.—There is no founda-  
tion for the rumor of the death of  
Count Jutaro Komura, minister of for-  
eign affairs. He was in excellent  
health when seen today and said he  
expected to make a speech before the  
diet soon.

## Our two Matchless Attractions

### The White Sale

No sale that we have ever held has brought forth the many favorable  
comments that the White Sale has received. This sale closes Satur-  
day and if it has not yet had your attention it should have it before  
that time.

### Almost giving coats away

As near it as possible. We place your choice of any of our \$35.00,  
\$28.50, \$35.00, \$23.75, \$22.50, \$20.00 and \$19.00 coats on sale tomor-  
row at \$12.50. Think of this. Ever see equal values? These are  
cloth coats with the exception of our long tight fitting ones. Fur  
collared coats too.

## MAKES HIS MAIDEN SPEECH

Senator Cummins Opposes Postal  
Savings Bank Bill.

Washington, Jan. 27.—A speech by  
Senator Davis of Arkansas favoring  
legislation to prevent dealings by ex-  
changes in "futures" in products of  
the soil and a maiden speech by Sena-  
tor Cummins of Iowa against the pas-  
sage of the postal savings bank bill as  
reported to the senate by the commit-  
tee on postoffices and post roads were  
the features in the senate. Mr. Cum-  
mins spoke in favor of the deposit of  
postal savings in state and territorial  
banks.

The senate voted to purchase an oil  
portrait of the late Senator Allison of  
Iowa.

## IN A SPECIAL MESSAGE

President Will Recommend Creation  
of Federal Children's Bureau.

Washington, Jan. 27.—"I shall send  
a special message to congress," said  
President Roosevelt at the subscrip-  
tion dinner in connection with the  
conference for the care of dependent  
children, "recommending the estab-  
lishment of a federal children's bureau  
and a law for the District of Columbia  
and the federal territories which shall  
apply the principles and methods you  
advocate in practical fashion."

"I want to explain to the ladies and  
gentlemen present," he continued,  
"that when I have sent such a mes-  
sage to congress, it does not do any  
good to write and ask me why it is  
not passed."

He declared that he frequently re-  
ceived such queries in regard to his  
messages.

"I will send this message to con-  
gress," he repeated, "and then you do  
your part to get it made into a law.  
I will do all that in me lies to see that  
your great work as regards the fed-  
eral government bears immediate  
fruit."

Declaring that "agencies which were  
the best possible agencies a decade  
or more ago have been passed by," he  
said: "We were then in the muzzle-  
loading stage in the fight against evil.  
Men and women did mighty good work  
with the muzzle-loaders, but we want  
to use breech-loaders now."

Celebration Where Lincoln Spoke.

The faculty and students of the  
school of law of Northwestern univer-  
sity, in Chicago, are planning a ce-  
lebration in honor of the one hundredth  
anniversary of the birth of Abraham  
Lincoln during centennial week, Feb.  
7 to 14. The university building, at  
Dearborn and Lake streets, occupies  
the site of the old Tremont House, de-  
stroyed in the Chicago fire. From an  
upper balcony of the old hostelry Lin-  
coln spoke during the historical series  
of debates with Douglas. The present  
assembly room of the university build-  
ing occupies about the same position  
as did the room immediately back of  
the historical balcony. It is therefore  
proposed to have a celebration in this  
room, at which Dr. Little of the Bar-  
rett Biblical institute will deliver the  
principal address.

A \$10,000 Beefsteak Dinner.

In the hotel-lined-for-the-occasion  
rathskeller of the Hotel Metropole, in  
New York, a hundred guests of George  
A. Kessler sat down to a \$10,000 beef-  
steak dinner the other night. The  
whole place had been transformed into  
what looked like a wholesale butchers'  
refrigerating plant. The favors were  
fifty dollar silver mugs. The guests,  
who sat on wooden benches, ate off  
tables which were imitation cakes of  
ice.

## SENSATIONAL

### CHARGES MADE

Wisconsin Senator Accused of  
Purchasing Election.

Madison, Wis., Jan. 27.—If United  
States Senator Isaac Stephenson holds  
the strength he exhibited Tuesday in  
separate branches of the Wisconsin  
legislature he will be elected in joint  
assembly today to succeed himself for  
a full term. Senator Stephenson re-  
ceived 60 votes in the assembly and  
12 in the senate, or a total vote of  
72. In the assembly 15 members  
voted blank and in the senate 16 were  
counted as present but not voting. It  
requires 67 votes in joint assembly  
to elect. It was said that several  
members of the assembly voted for  
Stephenson under pressure and that  
an effort would likely be made to  
have them withdraw their support to-  
day. Mr. Stephenson cannot afford to  
lose more than five votes of Tuesday's  
total strength.

Sensations were numerous, espe-  
cially in the upper branch of the leg-  
islature. Shortly after convening,  
Senator Hustings, in speaking to the  
joint resolution to investigate the  
senatorial primary, said "can you use  
the cloak of the primary to debauch  
the electorate?" It was a matter of  
common knowledge that nothing but  
money entered into the election cam-  
paign last summer and that money  
won, he said. On top of Senator  
Hustings' speech came Senator Blaine  
with the filing of sixteen specific  
charges accusing Senator Stephenson  
of the improper use of money in the  
primary, naming the sum as in excess  
of \$106,000 and approximating \$250,-  
000. Senator Blaine followed the pre-  
sentation of his charges by speaking  
to the subject, "The Purchase of a  
United Senatorship," and he proposed  
to show that it was purchased by cor-  
ruption, bribery and fraud. He cited  
the case of former United States Sena-  
tor Clark of Montana, saying that  
Clark had no other claim to office  
than his millions and that Stephe-  
nson's was the same. He followed his  
attack by offering a substitute inves-  
tigation resolution in place of the  
Hustings measure, which differed in  
that it provided immunity from arrest  
for all who may testify to the commit-  
tee of bribery, but not immunity for  
perjury. This resolution was adopted  
by the senate. The original investi-  
gation resolution was killed in the as-  
sembly.

Deaf Mute a Suicide.

New York, Jan. 27.—Herman Heerd,  
a deaf mute and a printer and impor-  
ter of fancy calendars, committed sui-  
cide during the transit rush hours by  
throwing himself in front of an ex-  
press train from the platform of the  
Twenty-eighth street station of the  
Third avenue elevated road. His body  
was frightfully mangled. Heerd's  
act caused the greatest excitement  
among the passengers on the crowded  
express.

Slosson Regains Championship.

New York, Jan. 27.—George Slosson  
of this city, who won the 18.1 bakline  
billiard professional championship  
eleven years ago and lost it two years  
later, regained the honor by defeating  
George Sutton of Chicago in the  
Madison Square Garden concert hall.  
The score was 500 to 328.

## MORE LIGHT ON SITUATION

President Roosevelt Sends Another  
Letter to Governor Gillett.

Sacramento, Cal., Jan. 27.—Govern-  
or Gillett's message on the Japanese  
question, sent to the legislature, had  
the effect of crystallizing the senti-  
ment for and against the bills by  
Drew and Johnson against which  
President Roosevelt has invoked his  
power.

The president informed the govern-  
or that it would be extremely dan-  
gerous for the legislature to enact  
any laws that might be construed by  
Japan as discriminatory. He wired  
Governor Gillett that another letter to  
him was on the way. This is expected  
to throw more light upon the situ-  
ation as regards Japan and America.

Grove L. Johnson, author of the  
bill segregating Japanese in residen-  
tial districts at the option of munici-  
palities, moved when the measure  
came up for third reading, that it be  
made a special order for today. Thus  
two of the anti-Japanese measures  
will then be before the lower house  
and the whole issue will likely be di-  
vided. The bill by A. N. Drew deny-  
ing aliens the right to hold land was  
set for consideration today at the re-  
quest of the author after the governor  
had indicated that he desired such  
legislation held up.

Speaker Stanton and the assembly  
organization is against all of the bills  
objected to by the administration.  
The fight for them will come from  
Grove L. Johnson, the San Francisco  
delegate, and the assemblymen who  
have great numbers of union labor  
constituents. Stanton said:

"The governor's message was con-  
servative and should be heeded by the  
legislature. The federal authorities  
are more able to cope with the situa-  
tion than we."

## BANK CASHIER A SUICIDE

Overwork Given as Cause of Iowa  
Man's Act.

Portsmouth, Ia., Jan. 27.—C. S.  
Scroggins, for eighteen years cashier  
of the State Bank of Portsmouth, Ia.,  
committed suicide by shooting. State  
Bank Examiner Henry M. Cosman  
was at work examining the books of  
the bank. No unfavorable showing  
had been found.

The bank is believed to be solvent.  
There is no apparent reason for the  
suicide except overwork.

Nine Men in Jury Box.

Nashville, Tenn., Jan. 27.—When  
the second venire of 500 talesmen was  
exhausted without the completion of  
the jury to try Colonel Duncan Cooper,  
Robin Cooper and John D. Sharp for  
the slaying of former Senator E. W.  
Carmack, Judge Hart announced that  
he would devote a day to the hearing  
of charges against Jurors Leigh and  
Jackson. Meantime he drew another  
venire of 500 names. There are now  
nine men in the box, with charges  
against two of them.

Houses Carried Into Ocean.

San Luis Obispo, Cal., Jan. 27.—  
Three houses at El Pismo were car-  
ried away and swept into the Pacific  
ocean when Price creek overflowed  
and swept through the town. The  
Sant Maria river has changed its  
course, threatening the city of Santa  
Maria.

No Earthly Refuge For Embezzlers.

The last haven of refuge on earth  
for American bank wreckers, embez-  
zlers, defaulters and other criminals  
of that class was recently removed  
when the senate ratified an extradi-  
tion treaty with Honduras.

### House Sub-Committee Is Given Anti-Pass Bills.

### WOULD INDORSE ROOSEVELT

Kerry Conley of Rochester Presents Resolution Approving All the Work of the President and Especially That Relating to the Secret Service. Technical Manual Training School Building Desired for Farm School.

St. Paul, Jan. 27.—The anti-pass amendments were given another hour's discussion by the house railroad committee and after various motions they agreed to leave the three bills on that subject to a sub-committee to redraft into a new bill.

There was a general disposition among the committee to allow firemen, policemen, mail carriers, health officials and members of the salvage corps to ride free on the street cars, but W. D. Here the captain and Binns held a reception, receiving the congratulations of scores of callers and here Captain Sealby modestly told the story of how he stood by his ship until she sank beneath him. Later Captain Sealby and Operator Binns, accompanied by Captain Ransom of the Baltic, went to the White Star offices on lower Broadway, where another great crowd met them and the ovation was repeated.

On the Brooklyn water front at Gush's Stores, the Florida, which rammed her nose into the Republic's side with such force as to give that ship what proved her death blow, was the scene of much activity. Her seamen were clearing away the debris and making her shipshape, so that she might go into dry dock for repairs.

### Running at High Rate of Speed.

Captain Rospini declined to make any statement as to the cause of the collision, but after a conference with Representatives of C. B. Richards & Co., his agents, and Archibald Thatcher, an admiralty lawyer, Richards & Co. gave out a statement regarding the circumstances of the collision. Its feature was the direct charge that the Republic was running at a high rate of speed through the fog. It also refuted reports that the quartermaster of the Florida was to blame and that the captain struck the man.

A sad incident of the day was the death of Eugene Lynch of Boston in the Long Island hospital at Brooklyn. He succumbed to the serious injuries he received when the Florida crashed into the Republic's side just where his stateroom was located. His wife, who was with him, was killed instantly. Her body and that of W. J. Mooney, a banker of Langdon, N. D., were encased in metallic caskets and went down with the Republic when that ship sank Sunday night near No Man's Land.

The others injured in the collision, including Mrs. M. F. Murphy of Grand Forks, N. D., who was most seriously hurt, are reported as recovering in the hospitals here to which they were conveyed.

The produce exchange at a special meeting here adopted a resolution heartily favoring such international legislation as will compel the equipment of all ocean going passenger steamers with systems of wireless telegraphy, this in view of the important aid rendered by wireless telegraphy in the Nantucket disaster.

### FRANKHAUSER IS GUILTY

Train Robber Must Go to Prison for Life.

Helena, Mont., Jan. 27.—George Frankhauser was found guilty of robbing a Great Northern train, extracting \$40,000 from the registered mails and placing the lives of the custodians in jeopardy by the jury in the federal court here and he will be sentenced by Federal Judge W. H. Hunt on Thursday. Under the law he must serve the rest of his life in a federal prison at hard labor.

### Count Komura Not Dead.

Tokio, Jan. 27.—There is no foundation for the rumor of the death of Count Jutaro Komura, minister of foreign affairs. He was in excellent health when seen today and said he expected to make a speech before the diet soon.

### MAKES HIS MAIDEN SPEECH

Senator Cummins Opposes Postal Savings Bank Bill.

Washington, Jan. 27.—A speech by Senator Davis of Arkansas favoring legislation to prevent dealings by exchanges in "futures" in products of the soil and a maiden speech by Senator Cummins of Iowa against the passage of the postal savings bank bill as reported to the senate by the committee on postoffices and post roads were the features in the senate. Mr. Cummins spoke in favor of the deposit of postal savings in state and territorial banks.

The senate voted to purchase an oil portrait of the late Senator Allison of Iowa.

### IN A SPECIAL MESSAGE

President Will Recommend Creation of Federal Children's Bureau.

Washington, Jan. 27.—"I shall send a special message to congress," said President Roosevelt at the subscription dinner in connection with the conference for the care of dependent children, "recommending the establishment of a federal children's bureau and a law for the District of Columbia and the federal territories which shall apply the principles and methods you advocate in practical fashion."

"I want to explain to the ladies and gentlemen present," he continued, "that when I have sent such a message to congress, it does not do any good to write and ask me why it is not passed."

He declared that he frequently received such queries in regard to his messages.

"I will send this message to congress," he repeated, "and then you do your part to get it made into a law. I will do all that in me lies to see that your great work as regards the federal government bears immediate fruit."

### Celebration Where Lincoln Spoke.

The faculty and students of the school of law of Northwestern university, in Chicago, are planning a celebration in honor of the one hundredth anniversary of the birth of Abraham Lincoln during centennial week, Feb. 7 to 14. The university building, at Dearborn and Lake streets, occupies the site of the old Tremont House, destroyed in the Chicago fire. From an upper balcony of the old hostelry Lincoln spoke during the historical series of debates with Douglas. The present assembly room of the university building occupies about the same position as did the room immediately back of the historical balcony. It is therefore proposed to have a celebration in this room, at which Dr. Little of the Barrett Biblical Institute will deliver the principal address.

### A \$10,000 Beefsteak Dinner.

In the icicle-lined-for-the-occasion rathskeller of the Hotel Metropole, in New York, a hundred guests of George A. Kessler sat down to a \$10,000 beefsteak dinner the other night. The whole place had been transformed into what looked like a wholesale butchers' refrigerating plant. The favors were fifty dollar silver mugs. The guests, who sat on wooden benches, ate off tables which were imitation cakes of ice.

## SENSATIONAL CHARGES MADE

### Wisconsin Senator Accused of Purchasing Election.

Madison, Wis., Jan. 27.—If United States Senator Isaac Stephenson holds the strength he exhibited Tuesday in separate branches of the Wisconsin legislature he will be elected in joint assembly today to succeed himself for a full term. Senator Stephenson received 60 votes in the assembly and 12 in the senate, or a total vote of 72. In the assembly 15 members voted blank and in the senate 16 were counted as present but not voting. It requires 67 votes in joint assembly to elect. It was said that several members of the assembly voted for Stephenson under pressure and that an effort would likely be made to have them withdraw their support today. Mr. Stephenson cannot afford to lose more than five votes of Tuesday's total strength.

Sensations were numerous, especially in the upper branch of the legislature. Shortly after convening, Senator Hastings, in speaking to the joint resolution to investigate the senatorial primary, said "can you use the cloak of the primary to debauch the electorate?" It was a matter of common knowledge that nothing but money entered into the election campaign last summer and that money won, he said. On top of Senator Hastings' speech came Senator Blaine with the filing of sixteen specific charges accusing Senator Stephenson of the improper use of money in the primary, naming the sum as in excess of \$106,000 and approximating \$250,000. Senator Blaine followed the presentation of his charges by speaking to the subject, "The Purchase of a United States Senatorship," and he proposed to show that it was purchased by corruption, bribery and fraud. He cited the case of former United States Senator Clark of Montana, saying that Clark had no other claim to office than his millions and that Stephenson's was the same. He followed his attack by offering a substitute investigation resolution in place of the Hastings measure, which differed in that it provided immunity from arrest for all who may testify to the committee of bribery, but not immunity from perjury. This resolution was adopted by the senate. The original investigation resolution was killed in the assembly.

Deaf Mute a Suicide.

New York, Jan. 27.—Herman Heerd, a deaf mute and a printer and importer of fancy calendars, committed suicide during the transit rush hours by throwing himself in front of an express train from the platform of the Twenty-eighth street station of the Third avenue elevated road. His body was frightfully mangled. Heerd's act caused the greatest excitement among the passengers on the crowded express.

### Slosson Regains Championship.

New York, Jan. 27.—George Slosson of this city, who won the 181 bakline billiard professional championship eleven years ago and lost it two years later, regained the honor by defeating George Sutton of Chicago in the Madison Square Garden concert hall. The score was 500 to 328.

### MORE LIGHT ON SITUATION

President Roosevelt Sends Another Letter to Governor Gillett.

Sacramento, Cal., Jan. 27.—Governor Gillett's message on the Japanese question, sent to the legislature, had the effect of crystallizing the sentiment for and against the bills by Drew and Johnson against which President Roosevelt has invoked his power.

The president informed the governor that it would be extremely dangerous for the legislature to enact any laws that might be construed by Japan as discriminatory. He wired Governor Gillett that another letter to him was on the way. This is expected to throw more light upon the situation as regards Japan and America.

Grove L. Johnson, author of the bill segregating Japanese in residential districts at the option of municipalities, moved when the measure came up for third reading, that it be made a special order for today. Thus two of the anti-Japanese measures will then be before the lower house and the whole issue will likely be divided. The bill by A. N. Drew denying aliens the right to hold land was set for consideration today at the request of the author after the governor had indicated that he desired such legislation held up.

Speaker Stanton and the assembly organization is against all of the bills objected to by the administration. The fight for them will come from Grove L. Johnson, the San Francisco delegate, and the assemblymen who have great numbers of union labor constituents. Stanton said:

"The governor's message was conservative and should be heeded by the legislature. The federal authorities are more able to cope with the situation than we."

### BANK CASHIER A SUICIDE

Overwork Given as Cause of Iowa Man's Act.

Portsmouth, Ia., Jan. 27.—C. S. Scroggins, for eighteen years cashier of the State Bank of Portsmouth, Ia., committed suicide by shooting. State Bank Examiner Henry M. Cosman was at work examining the books of the bank. No unfavorable showing had been found.

The bank is believed to be solvent. There is no apparent reason for the suicide except overwork.

### Nine Men in Jury Box.

Nashville, Tenn., Jan. 27.—When the second venire of 500 talesmen was exhausted without the completion of the jury to try Colonel Duncan Cooper, Robin Cooper and John D. Sharp for the slaying of former Senator E. W. Carmack, Judge Hart announced that he would devote a day to the hearing of charges against Jurors Leigh and Jackson. Meantime he drew another venire of 500 names. There are now nine men in the box, with charges against two of them.

### Houses Carried into Ocean.

San Luis Obispo, Cal., Jan. 27.—Three houses at El Picmo were carried away and swept into the Pacific ocean when Price creek overflowed and swept through the town. The Santa Maria river has changed its course, threatening the city of Santa Maria.

### No Earthly Refuge For Embezzlers.

The last haven of refuge on earth for American bank wreckers, embezzlers, defaulters and other criminals of that class was recently removed when the senate ratified an extradition treaty with Honduras.

If the legislature passes a law taxing bachelors, as is talked of, they should also pension the spinsters.

The government is having planted 190 bushels of pine cones in Wyoming which, if they germinate, will produce full grown pine trees in 1990.

ACCORDING to a statement issued by the state board of health smallpox is less prevalent in Minnesota than during any winter since the first epidemic ten years ago.

The talk among the democrats in Washington is to the effect that Representative Hammond will be the most plausible candidate the democrats of Minnesota can name for governor next year. What is the matter with Johnson, is he to remove from the state?

OUR sister city of Staples is to have a new paper in opposition to the World which already covers the field thoroughly and is not supported any better than it should be by local advertisers, considering the fact that it is an up-to-date publication and a credit to the town. This is probably the fifth effort to start a second paper there and as fast as they have found that the long felt want was satisfied before they entered the field Bro. Drawz has taken them into the fold and absorbed what little substance was left in the undertaking.

THE Minneapolis Journal thinks the government has overlooked a valuable means of disposing of the goods offered for sale at the different postoffices throughout the country by failing to properly advertise through the medium of the newspaper new rates and changes in postal affairs. Not that the idea is advanced that cut rates on job lots of stamps or bargains in money orders is expected but that when an event of recent occurrence like the reduction in letter rates to England and Germany from five to two cents is inaugurated, which is a reduction of 60 per cent, it is an important innovation and the government should not depend entirely on the generosity of the newspapers to herald the announcement and keep it before their readers, so they may take the benefit, free of charge. The government should have an advertising manager in that the modern practice of publicity might be introduced in post-office affairs with manifold benefits.

If you look like a deer, make a noise like a deer or in any way resemble the animal above mentioned it is sufficient provocation for any "hunter" to take a shot at you without being amenable to the law, according to a bill introduced in the legislature this week. The law at present makes it manslaughter to shoot a man by mistake for a deer—and it is a just law. A man should be able to "make a noise like a hunter" before he is allowed to go into the woods after big game and there would be no danger of people being mistaken for squirrels, rabbits, deer and moose and killed. It is the fellow who shoots at any and everything that moves who causes the damage and any man who does that should be punished if he maims or kills a human being by his carelessness. Remove the penalty and it would be all a man's life is worth to go into the woods during the deer season; the present law does have the effect of making men more careful in the handling of fire arms, and no man will get the worst of it in case of an unavoidable accident.

## GAME CENSUS MOVE.

Audubon Society's Plan to Ascertain Amount Hunters Kill.

## SPORTSMEN ARE INTERESTED

Purpose is to Find Out How Fast Birds and Animals Are Being Extirpated--Attempt to Be Made in All Legislatures to Get Laws Permitting a Count.

To measure the contents of Uncle Sam's game bag during the new year is the object of a concerted effort in which sportsmen from every section of the United States and the National Association of Audubon Societies in New York city are joining hands. It is proposed that detailed records of each day's shoot be secured from every true sportsman and required by law of every one else in all states where the Audubon and sporting interests can obtain the necessary legislation. Unless the annual inroads upon the rapidly decreasing game of America are thus determined, so the leaders of the new movement declared the other day, shooting as a healthful recreation will soon be killed in almost every region of the continent.

That the health, crops and woods, as well as the sport, of many extensive localities are today seriously menaced by the threatened extinction of game birds will be demonstrated through the latest scientific investigations by government authorities at Washington. Waterfowl and shore birds will be shown in their natural capacity of destroying the anopheles mosquito, as well as many other recognized distributors of deadly germs. Gulls and many other varieties of sea and inland water birds will be proved by ornithological experts to be wholesale destroyers of grasshoppers and a multitude of the insects which cause an annual crop and forest loss of nearly a billion dollars, or more than the entire national debt, according to the most recent calculations of the government bureau of entomology. The case of Salt Lake City, where people have erected a monument to the gulls that saved all their crops from destruction by an insect plague, will also be cited.

In every one of the forty-four state legislatures which convene in the new year special efforts will be made to obtain legal provision for this game census, says the New York Post. Where a hunters' license law is al-

ready in force the addition of a law to enforce the recording of all game birds and animals shot will be urged. It is proposed, in order to protect the true sportsmen and to detect market hunters, to punish failure to report the season's shoot by a forfeiture of license and false returns by proceeding as against perjury. Special blanks for the purpose are being prepared as an attachment to all hunters' license cards.

When the purpose and necessity of this widespread checking up of the nation's game bag are realized by the people at large, the labor of compiling the records of the individual prowess of millions of hunters will be begun. In this gigantic task the officers of the National Association of Audubon Societies have been promised the hearty assistance of the director of the national conservation commission, of which their organization has become a co-ordinate branch by special invitation of the authorities at Washington. This conservation movement they will forward as one of their principal activities for the new year, together with their regular work of education, bird care on reservations and legislative campaigning for general bird protection.

"The conservation of the dying races of the game birds and animals of this continent is an object for which we are finding every true sportsman ready and eager to co-operate," said William Dutcher, president of the National Association of Audubon Societies, at its headquarters in New York city the other day. "The proposed census is the only sure way of determining the extent of the existing commercial bird butchery and the means to check it. Though we shall, of course, have to fight the organized and financially powerful market hunters at every step toward this end, I feel sure that the support of the sportsmen will help us greatly and that we may rely upon the support of every patriotic American as well. The whole public debt of this nation has just been reported as \$997,349,751. With a known annual loss of many millions more than this due to the growing inroads of the insects which our game birds destroy, I do not think Americans can ignore this subject much longer."

## NEW MESSINA IN FLORIDA.

Extensive Tract of Land Offered For Colonizing Earthquake Refugees.

Duke Pompeo Litta of Lombardy, France, recently called on the Italian ambassador at Paris, Signor Gallina, and offered to give part of an extensive tract of land in Manatee county, Fla., owned by him, for the purpose of colonizing 5,000 victims of the earthquake in Calabria and Sicily. The ambassador communicated the duke's proposal to the Italian government.

Duke Pompeo Litta, who is a naturalized citizen of France, says that "a new Messina" may arise in a country which he describes as fertile and easy to exploit. The colonists could be employed in cutting forests, mining phosphate and raising cotton, fruits and vegetables. The duke would allot to each family two farms, one free and the other to be worked for a small rental. The tract in Florida is known locally as Miakka.

IF THE legislature passes a law tax-  
ing bachelors, as is talked of, they  
should also pension the spinsters.

THE government is having planted

ACCORDING to a statement issued by  
the state board of health smallpox is  
less prevalent in Minnesota than during  
any winter since the first epidemic ten  
years ago.

THE talk among the democrats in  
Washington is to the effect that Rep-  
resentative Hammond will be the most  
plausible candidate the democrats of  
Minnesota can name for governor next  
year. What is the matter with John-  
son, is he to remove from the state?

OUR sister city of Staples is to have  
a new paper in opposition to the World  
which already covers the field thoroughly  
and is not supported any better than it  
should be by local advertisers, consid-  
ering the fact that it is an up-to-date  
publication and a credit to the town.  
This is probably the fifth effort to start  
a second paper there and as fast as  
they have found that the long felt  
want was satisfied before they entered  
the field Bro. Drawz has taken them  
into the fold and absorbed what little  
substance was left in the undertaking.

THE Minneapolis Journal thinks the  
government has overlooked a valuable  
means of disposing of the goods offered  
for sale at the different postoffices  
throughout the country by failing to  
properly advertise through the medium  
of the newspaper new rates and changes  
in postal affairs. Not that the idea is  
advanced that cut rates on job lots of  
stamps or bargains in money orders is  
expected but that when an event of re-  
cent occurrence like the reduction in  
letter rates to England and Germany  
from five to two cents is inaugurated,  
which is a reduction of 60 per cent, it is  
an important innovation and the gov-  
ernment should not depend entirely on  
the generosity of the newspapers to  
herald the announcement and keep it  
before their readers, so they may take  
the benefit, free of charge. The gov-  
ernment should have an advertising  
manager in that the modern practice of  
publicity might be introduced in post-  
office affairs with manifold benefits.

IF you look like a deer, make a noise  
like a deer or in any way resemble the  
animal above mentioned it is suffi-  
cient provocation for any "hunter" to  
take a shot at you without being  
amenable to the law, according to a  
bill introduced in the legislature this  
week. The law at present makes it  
manslaughter to shoot a man by mis-  
take for a deer—and it is a just law.  
A man should be able to "make a noise  
like a hunter" before he is allowed to  
go into the woods after big game and  
there would be no danger of people be-  
ing mistaken for squirrels, rabbits, deer  
and moose and killed. It is the fellow  
who shoots at any and everything that  
moves who causes the damage and any  
man who does that should be punished  
if he maims or kills a human being by  
his carelessness. Remove the penalty  
and it would be all a man's life is worth  
to go into the woods during the deer  
season; the present law does have the  
effect of making men more careful in  
the handling of fire arms, and no man  
will get the worst of it in case of an  
unavoidable accident.

**GAME CENSUS MOVE.**  
Audubon Society's Plan to Ascertain

**SPORTSMEN ARE INTERESTED**

Purpose Is to Find Out How Fast  
Birds and Animals Are Being Ex-  
terminated--Attempt to Be Made in  
All Legislatures to Get Laws Per-  
mitting a Count.

To measure the contents of Uncle  
Sam's game bag during the new year  
is the object of a concerted effort in  
which sportsmen from every section of  
the United States and the National As-  
sociation of Audubon Societies in New  
York city are joining hands. It is pro-  
posed that detailed records of each  
day's shoot be secured from every true  
sportsman and required by law of  
every one else in all states where the  
Audubon and sporting interests can  
obtain the necessary legislation. Un-  
less the annual inroads upon the rap-  
idly decreasing game of America are  
thus determined, so the leaders of the  
new movement declared the other day,  
shooting as a healthful recreation will  
soon be killed in almost every region  
of the continent.

That the health, crops and woods, as  
well as the sport, of many extensive  
localities are today seriously menaced  
by the threatened extinction of game  
birds will be demonstrated through the  
latest scientific investigations by gov-  
ernment authorities at Washington.  
Waterfowl and shore birds will be  
shown in their natural capacity of de-  
stroying the anopheles mosquito, as  
well as many other recognized distri-  
bers of deadly germs. Gulls and many  
other varieties of sea and inland water  
birds will be proved by ornithological  
experts to be wholesale destroyers of  
grasshoppers and a multitude of the in-  
sects which cause an annual crop and  
forest loss of nearly a billion dollars,  
or more than the entire national debt,  
according to the most recent calcula-  
tions of the government bureau of en-  
tomology. The case of Salt Lake City,  
whose people have erected a monument  
to the gulls that saved all their crops  
from destruction by an insect plague,  
will also be cited.

In every one of the forty-four state  
legislatures which convene in the new  
year special efforts will be made to ob-  
tain legal provision for this game  
census, says the New York Post.  
Where a hunters' license law is al-

ready in force the addition of a law  
to enforce the recording of all game  
birds and animals shot will be urged.  
It is proposed, in order to protect the  
true sportsmen and to detect market  
hunters, to punish failure to report the  
season's shoot by a forfeiture of li-  
cense and false returns by proceeding  
as against perjury. Special blanks for  
the purpose are being prepared as an  
attachment to all hunters' license cards.

When the purpose and necessity of  
this widespread checking up of the  
nation's game bag are realized by the  
people at large, the labor of com-  
piling the records of the individual  
proceeds of millions of hunters will be  
begun. In this gigantic task the offi-  
cers of the National Association of  
Audubon Societies have been prom-  
ised the hearty assistance of the di-  
rector of the national conservation  
commission, of which their organiza-  
tion has become a co-ordinate branch  
by special invitation of the authori-  
ties at Washington. This conserva-  
tion movement they will forward as  
one of their principal activities for the  
new year, together with their regular  
work of education, bird care on reser-  
vations and legislative campaigning  
for general bird protection.

"The conservation of the dying races  
of the game birds and animals of this  
continent is an object for which we  
are finding every true sportsman ready  
and eager to co-operate," said William  
Dutcher, president of the National As-  
sociation of Audubon Societies, at its  
headquarters in New York city the  
other day. "The proposed census is  
the only sure way of determining the  
extent of the existing commercial bird  
butchery and the means to check it.  
Though we shall, of course, have to  
fight the organized and financially pow-  
erful market hunters at every step to  
ward this end, I feel sure that the sup-  
port of the sportsmen will help us  
greatly and that we may rely upon  
the support of every patriotic Ameri-  
can as well. The whole public debt  
of this nation has just been reported  
as \$997,349,751. With a known annual  
loss of many millions more than this  
due to the growing inroads of the in-  
sects which our game birds destroy, I  
do not think Americans can ignore this  
subject much longer."

the other to be worked for a small

## FATAL FIRE AT BIG FALLS

Two Men Lost Lives and Four  
Were Badly Injured in Audit  
Hotel Fire

**BUILDING A TOTAL LOSS**  
Mr. and Mrs. Paul Lawrence Badly  
Burned and Nels Erickson  
Badly Injured

Big Falls was visited by a big fire Tuesday night in which two men lost their lives and three men and a woman were perhaps fatally injured. J. J. Curley, a homesteader living near Waukonda, and a man named John LaBree were burned to death in the Audit saloon and hotel by a fire which started about midnight and destroyed the entire building together with its contents. Nels Erickson and an unknown man jumped from the third story window and were both probably fatally injured. Mr. Erickson had his head badly crushed by the fall and almost severed his jugular vein jumping thru the window glass. The unknown man had his hip and shoulder smashed. Both were badly burned about the face. The hotel was kept by Paul Lawrence and a party named Tremane. Mr. and Mrs. Lawrence both were compelled to run through the flames in their night clothes in order to escape from the building and both were badly burned about the head, face and body. It is feared that her injuries will prove fatal. The four injured people were brought to Bemidji on the morning passenger train and placed in a hospital there. Fred Gagnon jumped from the third story window and escaped unhurt. Lawrence and Tremane had only leased the hotel and saloon two weeks before. The building and its contents were valued at \$15,000 and are a total loss. The saloon building adjoining, owned by a man named Larson, was also destroyed, but its contents were saved. This was a one story building and the loss will be comparatively small. The Audit hotel and saloon was a second class hotel frequented mostly by homesteaders and lumbermen.

It was not known until this morning that John LaBree had lost his life but his remains were found in the debris of the building about 10 o'clock in the forenoon. J. W. Bush, of this city, on whose train the injured people were brought to the hospital at Bemidji, states that the physician at Big Falls gave no hopes for the recovery of Mrs. Lawrence. The flesh was burned away on her sides clear to the ribs and her back was badly burned and her face swelled to twice its natural size. According to the reports received here one of the men who was burned to death knocked over a lamp as he was going to bed and set the fire.

### Religious Author's Statement

For several years I was afflicted with kidney trouble and last winter I was suddenly stricken with a severe pain in my kidneys and was confined to bed eight days unable to get up without assistance. My urine contained a thick white sediment and I passed same frequently day and night. I commenced taking Foley's Kidney Remedy, and the pain gradually abated and finally ceased and my urine became normal. I cheerfully recommend Foley's Kidney Remedy. H. P. Dunn, Druggist, mwf-w

## KILLS BURLESQUE ACTRESS

Unknown Man Then Ends His Own Life.

Philadelphia, Jan. 27.—Mazie Kenney, a burlesque actress, twenty years old, was shot and almost instantly killed by a man who then fired a bullet into his own brain and died shortly after his removal to a hospital. The identity of the murderer and suicide is unknown to the friends of the dead actress. They state that he had been paying attention to her for about a month. At night they went to a theater. After the show they entered the room when two shots were heard. Upon investigation the couple were found lying on the floor of the room.

## PSYCHIC REST ROOM

Chicago to Have One in Connection With a Church.

PASTOR EXTOLS ITS VALUE.

Expects to Make Life Brighter For Men and Women Who Worry—Decorations of Room to Be of a Soothing Sort—New Use For Psychology.

A psychic rest room, where one's worries and mental ills are to be banished by that subtle power which everybody is supposed to contain within oneself, is to become a fact in Chicago. This rest room—the first of its kind—is to be maintained in connection with the classes in Christian psychology which meet at Immanuel Baptist church.

It was at a recent session of the class, the first to be held in the Immanuel Baptist church, that the Rev. Dr. Johnston Myers announced that the rest room would be established in the near future. While declaring that it was not expected to become a panacea for all ills, he said it would be maintained by the same theory that had permitted him to keep in such physical condition that he could remain in his pulpit until the present.

Just where the room would be Dr. Myers did not know. It has been suggested, however, that the room be opened in the business district in order that tired workers in the shop as well as shoppers may seize upon a leisure moment in the day and banish all worries and troubles for a brief period.

The room is to be supplied with chairs of such mammoth proportions that one's body cannot help feeling the relief that comes to the mind. Decorations will be of a soothing sort.

"I have insisted on taking an hour of this sort—two if possible—at all times, myself, and I credit my present good health as resulting from this practice as anything else," said Dr. Myers. "I shut myself in a room, close the doors and forget that there is such a thing as an outside world. I tell everybody about the house that I am not to be seen by anybody."

"The result is surprising to anybody who knows nothing about this practice. I arouse myself at the end of the hour feeling refreshed and ready to take up my work again. It isn't that I have been asleep, but that I have learned to relax myself in such a manner that I can forget to worry about anything."

"I read of a similar practice by District Attorney Jerome of New York city and believe it probably has been just as beneficial to that indefatigable worker. At his busiest times it is said of him that he will retreat into his office, lock the door and refuse to see visitors, no matter how important the mission. If the visitor places his ear to the keyhole, however, it is probable that he will hear deep, long breathing, telling of the prosecutor's restful state."

The class in Christian psychology was organized a short time ago by Bishop Samuel Fallows. Dr. Myers in his address to the class spoke in praise of practically every known curative power.

"There is much good in patent medicine of some kinds. Drug stores have their place. Physicians are doing worlds of good for the sick," said Dr. Myers. "What we are going to endeavor to do, however, is to fill a place which none of these things fill."

"We want to put our knowledge of psychology to work where it will do the most good. Psychology has been used before, but it has been used generally in a blundering manner. Now we hope to study how it can be used best, and I believe we can accomplish wonders by its proper use. I think that these lectures will be of great value primarily to all persons who can come here. They may study how to help themselves. They will be of greater good, however, in that they will teach these people how to help others."

Nearly 300 men and women, including scores who plainly were suffering from various ailments which Dr. Myers hopes will be cured by his teachings, were present at the first class meeting. A large majority of those present expressed their intention of becoming members of the class.

"I don't take much stock in these things, but I am going to be a member of the class," said one man who attended the meeting with the aid of a crutch. "Dr. Myers' common sense statements have given me a new insight into the use of cheerful thinking and teaching. I believe Christian psychology will do me more good than anything that I have tried in years."

## WHEN YOU CAN EAT NEW BREAD

You Like it But Don't Dare Eat  
it Now For Fear of  
Indigestion

JUST A LITTLE DIAPEPSIN

Begin Today to Eat Your Favorite  
Foods Without Dread of  
Stomach Distress

You can eat anything your stomach craves without fear of a case of Indigestion or Dyspepsia, or that your food will ferment or sour on your stomach if you will take Diapepsin after eating.

Your meals will taste good, and anything you eat will be digested; nothing can ferment or turn into acid or poison or stomach gas, which causes belching, dizziness, a feeling of fullness after eating, nausea, indigestion (like a lump of lead in the stomach), biliousness, heartburn, water brash, pain in stomach and intestines or other symptoms.

Headaches from the stomach are absolutely unknown where this effective remedy is used. Diapepsin really does all the work of a healthy stomach. It digests your meals when your stomach can't. Each triangle will digest all the food you can eat and leave nothing to ferment or sour.

Get a large 50-cent case of Pape's Diapepsin from your druggist and start taking today and by tomorrow you will actually brag about your healthy, strong stomach, for you then can eat anything and everything you want without the slightest discomfort or misery, and every particle of impurity and gas that is in your stomach and intestines is going to be carried away without the use of laxatives or any other assistance.

### CLARA MORRIS' POWER.

Famous Actress' Remarkable Command of Facial Expression.

An interesting story of the power of Clara Morris, the famous actress, is related as follows by J. H. Stoddard in one of his books:

"All the great actors I have ever seen had mannerisms. Macready, Charlotte Cushman, Keen, all of them had mannerisms in delivery, a certain chopping of the sentences; they electrified their audiences."

"Clara Morris had the most absolute command of facial expression of any actress that I can recall."

"When I acted the part of Dr. Osborne with her in 'Miss Merton,' I had one proof of this. In the death scene she would be sitting there, her face ghastly white with bismuth, and on the delivery of the words, 'Maurice—' for God's sake—let me see—my children,' the tears would make a furrow in the pigment on her cheeks."

"The Maurice of the cast and I would both weep. We could not help it. In the audience in front of us we would see many moved to tears."

"In such a moment as this Miss Morris has turned to me, made a grimace and said, 'Look at Maurice,' and there stood Maurice, as moist as a Scotch mist. In a flash she had turned her face to the audience and begun her lines, and the tears would go trickling down her cheeks again."

"She was crude in those days; but, as I have said of Cushman and the rest, there was something behind it all that electrified."

## SERIOUS WRECK OUT IN WYOMING

At Least One Person Killed and  
Many Others Injured.

Cheyenne, Wyo., Jan. 27.—The Union Pacific passenger train No. 5, known as the Oregon express, west-bound, struck a broken rail near Dana, 150 miles west of here and was wrecked.

Five coaches are in the ditch. Two are reported killed and twenty injured. A wrecking crew and relief train carrying doctors left here. The killed and injured will be brought here.

Omaha, Jan. 27.—The list of casualties in the wreck west of Cheyenne, which include one dead and nine seriously injured, was given out by Union Pacific officials here as follows:

The dead person is Miss Emma Clingenpul, Danbury, Ia., en route to Caldwell, Ida.

The injured are: Mrs. Olive Clingenpul, Danbury, Ia., mother of dead girl; Miss Rosa Clingenpul, Everett, Friedley, Rising City, Neb.; U. S. Smith, McAlester, Okla.; Mrs. L. M. Hickox, Grand Rapids, Wis.; E. E. Barber, Junction City, Kan.; John Pfeffer, Akron, Colo.; A. T. Noll, Indianapolis; Celia Nelson, Omaha.

These nine were seriously injured and were taken to a Cheyenne hospital. The dead body of Miss Clingenpul was also taken to Cheyenne. About twenty others received injuries, but all were able to resume their journeys.

### RESULT OF GAS EXPLOSION

Five Men Dead and One Other Seriously Injured.

Pittsburg, Jan. 27.—Five men are dead as the result of the gas explosion and subsequent fire in the Merchants' mine of the United States Coal company at Boswell, Somerset county. One man is seriously injured and several others are slightly injured. The dead are:

J. G. Logan of Pittsburg, mine superintendent; George Morris, assistant superintendent; John Cole, day foreman; Andrew Shulock and his son, German miners.

The injured are William Hay of Jenners, one of rescuing party, taken out of mine in serious condition; several foreign miners, painfully burned. In spite of persistent reports circulated that a score or more of persons were still in the mine and probably dead, it is believed this is the complete list of dead and injured. State Mine Inspector Levther, who is at the mine with five assistants, announced that he was confident that there were no more bodies in the mine, although there are a few more headings which are choked with debris to be explored. Search for possible victims will be continued in these parts of the mine.

### DIAMONDS AS PARTIES

Mrs. Hope Offers Arkansas Gems to Guests as Party Favors.

Kansas City, Mo., has a society woman who gives diamonds to her guests as party favors. But she can afford it, because she owns a diamond mine—not in Africa, but in southwestern Arkansas.

Mrs. George D. Hope of 1233 Linwood boulevard, the wife of a wealthy lumberman, is the new "diamond queen." At a recent whist party at Mrs. Hope's home she surprised her guests by offering diamonds as prizes. Mrs. Hope's husband owns 10,000 acres of Arkansas timber land. Seven years ago, when Mr. Hope offered to sell 3,000 acres that had been "cut over" to his wife, she bought it at a bargain. A colored boy discovered the first pebble. Later Mrs. Hope visited the scene. She said:

"I found on the crest of a hill what appeared to be the crater of an extinct volcano. Since then I have picked up 285 diamonds in the vicinity of the old crater. Most of the gems were lying on the surface. I had 139 of the stones cut. They ranged in weight from one-quarter of a carat to five carats. I had several four and five carat stones, about a dozen one and a half carat stones and about a dozen one carat gems."

Mrs. Hope has had four solitaires, a cluster ring and two scarfpins "made up." She has about 100 uncut stones.

### BRITISH NATIONAL THEATER.

Shakespeare Memorial to Take That Form Instead of Statue.

London is to have a national theater as a memorial to Shakespeare, in which will be enacted the poet's works as well as plays by other English dramatists, living and dead. This decision is the outcome of extended deliberations of a special committee appointed last spring, when it was practically decided to substitute a theater for a statue as Shakespeare's memorial.

A site will be selected in the heart of London, and the theater will be controlled by a board of trustees chosen from men prominent in the literature, drama, music and education of the day.

### HAPPY WOMEN

Wouldn't any woman be happy, After years of backache suffering, Days of misery, nights of unrest, The distress of urinary troubles, She finds relief and cure? No reason why any Brainerd reader Should suffer in the face of evidence like this:

Mrs. L. Peterson, living in Brainerd, Minn., says: "I have used Doan's Kidney Pills and emphatically declare that this remedy is without doubt a most reliable one. I suffered for a long time from pains through my loins and a constant dull aching in the small of my back. As there were other symptoms which indicated a disordered condition of my kidneys, I decided to try Doan's Kidney Pills and procured them from H. P. Dunn's drug store. I began the use of this remedy, felt better in a few days and my condition gradually improved until all signs of kidney trouble had disappeared. I am a great believer in the merits of Doan's Kidney Pills and take pleasure in recommending them to other sufferers."

## JEROME WANTS TO PROSECUTE

Would Take Action in the Pan-  
ama Libel Affair.

### STATE MAY TAKE PRECEDENCE

Possible That Federal Authorities Will Stand Aside to Permit the State and County of New York to Proceed Against the Publishers of the New York World—Jerome Ready to Act.

New York, Jan. 27.—The possibility of the federal authorities having to stand aside to permit the state and county of New York to proceed against the publishers of the New York World for the alleged libel in connection with the Panama purchase was made apparent in a letter written by District Attorney Jerome to United States District Attorney Henry L. Stimson.

Provided Douglas Robinson, brother-in-law of the president, is willing to appear as a complainant witness, Mr. Jerome is ready, the letter states, to begin action at once in the state courts. It would be useless for him to do so, however, he explains, if his inquiry is not given precedence over that begun before the federal grand jury, as acquittal or conviction in one court would act as sufficient defense in the other.

"I have given the matter published in the New York World of Oct. 3, 1908, careful consideration," the letter says, "and am of the opinion that it is plainly a libel upon Charles P. Taft and Douglas Robinson, assuming, of course, that it is untrue as to the syndicate mentioned therein and their alleged connection therewith. Under the law of this state its publication is a crime, and as it was published in the county of New York, it is my duty under certain circumstances to prosecute those responsible for the publication."

"The publication has a much wider general importance than is found in most libels. It is substance charges that by corrupt and dishonorable, if not criminal means, the treasury of the United States was depleted to the extent of \$36,500,000 through the connivance, to give it no harsher description, of some of the chief officers of the state and that this great sum was 'divided among government favorites in the world of politics and finance.'"

Mr. Jerome then voices his conviction that so serious a charge should not pass unchallenged and that adequate justification should be shown, or those making it properly punished.

### A Spanish Commercial Boat.

A number of influential merchants of Barcelona, Spain, have under contemplation the chartering of a large vessel upon which they intend to install an exposition of Spanish manufactures and Spanish agricultural products. This vessel is to make a ten months' cruise, visiting the principal commercial ports of the world for the purpose of creating a larger demand for Spanish merchandise.

## FATAL FIRE AT BIG FALLS

Two Men Lost Lives and Four  
Were Badly Injured in Audit  
Hotel Fire

BUILDING A TOTAL LOSS

Mr. and Mrs. Paul Lawrence Badly  
Burned and Nels Erickson  
Badly Injured

Big Falls was visited by a big fire Tuesday night in which two men lost their lives and three men and a woman were perhaps fatally injured. J. J. Curley, a homesteader living near Waukonda, and a man named John LaBree were burned to death in the Audit saloon and hotel by a fire which started about midnight and destroyed the entire building together with its contents. Nels Erickson and an unknown man jumped from the third story window and were both probably fatally injured. Mr. Erickson had his head badly crushed by the fall and almost severed his jugular vein jumping thru the window glass. The unknown man had his hip and shoulder smashed. Both were badly burned about the face. The hotel was kept by Paul Lawrence and a party named Tremane. Mr. and Mrs. Lawrence both were compelled to run through the flames in their night clothes in order to escape from the building and both were badly burned about the head, face and body. It is feared that her injuries will prove fatal. The four injured people were brought to Bemidji on the morning passenger train and placed in a hospital there. Fred Gagnon jumped from the third story window and escaped unhurt. Lawrence and Tremane had only leased the hotel and saloon two weeks before. The building and its contents were valued at \$15,000 and are a total loss. The saloon building adjoining, owned by a man named Larson, was also destroyed, but its contents were saved. This was a one story building and the loss will be comparatively small. The Audit hotel and saloon was a second class hotel frequented mostly by homesteaders and lumbermen.

It was not known until this morning that John LaBree had lost his life but his remains were found in the debris of the building about 10 o'clock in the forenoon. J. W. Bush, of this city, on whose train the injured people were brought to the hospital at Bemidji, states that the physician at Big Falls gave no hopes for the recovery of Mrs. Lawrence. The flesh was burned away on her sides clear to the ribs and her back was badly burned and her face swelled to twice its natural size. According to the reports received here one of the men who was burned to death knocked over a lamp as he was going to bed and set the fire.

### Religious Author's Statement

## KILLS BURLESQUE ACTRESS

Unknown Man Then Ends His Own Life.

Philadelphia, Jan. 27.—Mazie Kenney, a burlesque actress, twenty years old, was shot and almost instantly killed by a man who then fired a bullet into his own brain and died shortly after his removal to a hospital.

The identity of the murderer and suicide is unknown to the friends of the dead actress. They state that he had been paying attention to her for about a month. At night they went to a theater. After the show they went to an apartment and had hardly entered the room when two shots were heard. Upon investigation the couple were found lying on the floor of the room.

Kansas City, Mo., has a society woman who gives diamonds to her guests as party favors. But she can afford it, because she owns a diamond mine—not in Africa, but in southwestern Arkansas.

Mrs. George D. Hope of 1233 Linwood boulevard, the wife of a wealthy lumberman, is the new "diamond queen." At a recent whist party at Mrs. Hope's home she surprised her guests by offering diamonds as prizes. Mrs. Hope's husband owns 10,000 acres of Arkansas timber land. Seven years ago, when Mr. Hope offered to sell 3,000 acres that had been "cut over" to his wife, she bought it at a bargain. A colored boy discovered the first pebble. Later Mrs. Hope visited the scene. She said:

"I found on the crest of a hill what appeared to be the crater of an extinct volcano. Since then I have picked up 285 diamonds in the vicinity of the old crater. Most of the gems were lying on the surface. I had 139 of the stones cut. They ranged in weight from one-quarter of a carat to five carats. I had several four and five carat stones, about a dozen one and a half carat stones and about a dozen one carat gems."

Mrs. Hope has had four solitaires, a cluster ring and two scarfpins "made up." She has about 100 uncut stones.

### BRITISH NATIONAL THEATER.

Shakespeare Memorial to Take That Form Instead of Statue.

London is to have a national theater as a memorial to Shakespeare, in which will be enacted the poet's works as well as plays by other English dramatists, living and dead. This decision is the outcome of extended deliberations of a special committee appointed last spring, when it was practically decided to substitute a theater for a statue as Shakespeare's memorial.

A site will be selected in the heart of London, and the theater will be controlled by a board of trustees chosen from men prominent in the literature, drama, music and education of the day.

### HAPPY WOMEN

Plenty of Them in Brainerd and Good Reasons for It

Wouldn't any woman be happy, After years of backache suffering, Days of misery, nights of unrest, The distress of urinary troubles, She finds relief and cure? No reason why any Brainerd reader Should suffer in the face of evidence like this:

Mrs. L. Peterson, living in Brainerd, Minn., says: "I have used Doan's Kidney Pills and emphatically declare that this remedy is without doubt a most reliable one. I suffered for a long time from pains through my loins and a constant dull aching in the small of my back. As there were other symptoms which indicated a disordered condition of my kidneys, I decided to try Doan's Kidney Pills and procured them from H. P. Dunn's drug store. I began the use of this remedy, felt better in a few days and my condition gradually improved until all signs of kidney trouble had disappeared. I am a great believer in the merits of Doan's Kidney Pills and take pleasure in recommending them to other sufferers."

## JEROME WANTS TO PROSECUTE

Would Take Action In the Panama  
Libel Affair.

### STATE MAY TAKE PRECEDENCE

Possible That Federal Authorities Will Stand Aside to Permit the State and County of New York to Proceed Against the Publishers of the New York World—Jerome Ready to Act.

New York, Jan. 27.—The possibility of the federal authorities having to stand aside to permit the state and county of New York to proceed against the publishers of the New York World for the alleged libel in connection with the Panama purchase was made apparent in a letter written by District Attorney Jerome to United States District Attorney Henry L. Stimson.

Provided Douglas Robinson, brother-in-law of the president, is willing to appear as a complainant witness, Mr. Jerome is ready, the letter states, to begin action at once in the state courts. It would be useless for him to do so, however, he explains, if his inquiry is not given precedence over that begun before the federal grand jury, as acquittal or conviction in one court would act as sufficient defense in the other.

"I have given the matter published in the New York World of Oct. 3, 1908, careful consideration," the letter says, "and am of the opinion that it is plainly a libel upon Charles P. Taft and Douglas Robinson, assuming, of course, that it is untrue as to the syndicate mentioned therein and their alleged connection therewith. Under the law of this state its publication is a crime, and as it was published in the county of New York, it is my duty under certain circumstances to prosecute those responsible for the publication."

"The publication has a much wider general importance than is found in most libels. It is substance charges that by corrupt and dishonorable, if not criminal means, the treasury of the United States was depleted to the extent of \$36,500,000 through the connivance, to give it no harsher description, of some of the chief officers of the state and that this great sum was 'divided among government favorites in the world of politics and finance.'"

Mr. Jerome then voices his conviction that so serious a charge should not pass unchallenged and that adequate justification should be shown, or those making it properly punished.

### A Spanish Commercial Boat.

A number of influential merchants of Barcelona, Spain, have under contemplation the chartering of a large vessel upon which they intend to install an expedition of Spanish manufactures and Spanish agricultural products. This vessel is to make a ten months' cruise, visiting the principal commercial ports of the world for the purpose of creating a larger demand for Spanish merchandise.

## NOVELTY IN WEDDINGS

Miss Coleman's Parson and Ushers to Be Women.

## SUFFRAGETTES TO CONTROL.

Lawyer For Migrant Party In New York Will Be Married to F. L. Hardenbrook by Rev. Lydia Commander. Wedding Cake in Ballot Boxes—Special Gifts From Bride to Ushers.

Men will be as inconspicuous as possible at the wedding of the suffragette lawyer, Miss Mary Coleman of New York city, to Frederick Lampton Hardenbrook, which will take place some time in Easter week. Mr. Hardenbrook himself will not be altogether in the background, and neither will Mr. Hugh Coleman, the father of the bride.

Miss Coleman is one of the most strenuous fighters for the franchise in the ranks of the Woman's National Progressive Suffrage union, but she asserted solemnly the other night after a meeting of suffragettes that no amount of emancipation would ever induce her to be given away by any one but her father.

Some of the more radical members of the union intimated that if one of their number so forgot what was due to the cause as to join her fortunes to those of a man before the great victory was won the least she could do was to permit a member of the executive committee to go through the formality of delivering her into the custody of her future lord and master. Miss Coleman shook her head emphatically and then announced that she was going to let Mr. Hardenbrook have the support of a best man.

The ceremony will be performed by the Rev. Lydia Kingsmill Commander, who was formerly pastor of a Unitarian church in Baraboo, Wis. The ushers, who will all be members of the union which stood loyally by Miss Coleman's side while she told the burning wrongs of her sex to crowds of men in Madison Square and One Hundred and Twenty-fifth street, New York, will wear white director's frocks with yellow sashes, and the maid of honor, Miss Lillian Phillips, will wear yellow liberty satin and a Charlotte Corday hat wreathed in yellow orchids. The bride's frock will be of white liberty satin, with yoke and sleeves of duchess lace and a court train. She will carry a bouquet of lilies of the valley and white orchids.

Owing to the fact that Miss Coleman is a Roman Catholic, while her fiancé is a member of the Presbyterian church, the ceremony will be performed at the residence of the bride's parents, 126 East One Hundred and Twenty-second street, New York. The drawing room will be a bower of daffodils (the union flower) and maidenhair fern, and the dining room will be decorated with the same flowers.

The wedding cake will be distributed to the guests in miniature ballot boxes, which will be inscribed below the intertwined initials of the bride and bridegroom with the legend "Votes For Women." In the center of the table reserved for the bridal party will be a full sized ballot box, which will contain special gifts from the bride to her ushers.

The suffragettes will attend in a body, and all of them will wear military sashes fastened with the famous yellow buttons with black lettering. Both Mr. and Mrs. Hardenbrook will wear buttons in conspicuous positions upon their outer garments when they "go away," and buttons and yellow confetti will be thrown after them instead of the traditional rice and old shoes. Buttons will also be attached to the yellow streamers floating from the maid of honor's bouquet of yellow daffodils.

## New World's Bowling Record.

The world's bowling record for tournament scores was recently broken at the Ohio state bowling tournament, held in Columbus, the Krollman five man team from Cincinnati rolling a total of 2,931. This was four points better than the record of the Bonds five man team of Columbus, made at the tournament at Cincinnati last year.

## REAL RAVEN CAME TAPPING.

Friendly Biographer of Poe, the Poet, Tells Remarkable Story.

At the Poe memorial meeting in Boston the other evening William Fearing Gill of Paris, the friendly biographer of the poetic genius Edgar Allan Poe, deeply interested his audience by relating a strange incident which he said had never been published or told and which he had determined to reserve for the centennial anniversary of the poet's birth.

"I was living in New York at the time, and in my room I had in a box the bones of Mrs. Edgar Allan Poe, which I had rescued when the graveyard in which she was interred was leveled. It was a bleak morning in December. I was awakened by a rap, rap, rap. I went to the door. No one was there. Again came the rap, rap, rap. I went to the window and opened it. All was darkness, but I could distinguish some sort of small animal on the sill. 'Come in,' I said, and in walked a raven.

"On my mantel I had an album of autograph letters of Poe, together with a poem called 'The Demon of the Fire,' which doubtless inspired his 'Raven.' This bird went to the book, perched on top of it and, fastening his talons in it, turned and looked at me. I said, in the words of the poem, 'Tell me what thy lordly name is.' The raven flapped his wings and cried, 'Who-oo,' probably as near 'Nevermore' as Poe's raven ever got. The apparition of the raven I accepted as Hamlet accepted the apparition of the ghost—as a rebuke because I had delayed so long in interring the remains of Mrs. Poe. While the bird sat there I wrote to Nelson Poe asking him to take the bones. He did so, and we interred them in Baltimore."

Mr. Gill told how he happened to buy the Poe cottage at Fordham in 1880 and how upon going to Europe some years later it was sold, with a provision in the deed that if it was ever changed in any particular the price of the estate should be forfeited to him.

He explained that it is desired to secure the cottage as a permanent memorial and said, "Four weeks ago I met a prominent actor-manager, who, without any solicitation on my part, said he would finance the matter."

## Ordered to Pay.

Washington, Jan. 27.—President Samuel Gompers, Vice President Mitchell, and Secretary Frank Morrison of the American Federation of Labor, who were recently adjudged in contempt of court and sentenced to terms of imprisonment in the District of Columbia jail, were ordered by Justice Wright of the District supreme court to pay the costs incurred in the proceedings, aggregating about \$1,500.

## CUP FOR BIGGEST FAMILY.

Princeton Man Leaves Singular Bequest to His Classmates of '94.

William G. Wilson of the class of '94 of Princeton university, who died in Baltimore on Dec. 31 last, made a unique bequest to his classmates.

His will provides that the member of the class of '94 who at the time of the twenty-fifth annual class reunion in 1919 shall have living the largest number of children shall receive a silver loving cup. It intrusts the awarding of the cup to a committee of classmates consisting of William F. Meredith, George W. Williams and J. McN. Thompson. Mr. Thompson, who was at one time curator of the university, died five days before Mr. Wilson in Albany.

## ODD CHICAGO SOCIETY

Doctors Have Had Cremation Fraternity For 31 Years.

## KEPT THEIR SECRET WELL.

Organization Only Recently Heard of Has Chapters in Many Cities and Originated in Chicago—Members Give Their Bodies to Science and Then to Flames.

A strange secret of thirty-one years' standing was recently revealed when more than a score of prominent Chicago physicians and surgeons admitted that they were members of the Ustion fraternity, a society having for its object the dissection of the bodies of its members after death and cremation of the remains.

This weird fraternity, to which only members of the medical profession are admitted, is of national scope. Its headquarters are in a well furnished clubhouse at 3232 Lake Park avenue, Chicago.

Chapters exist in New York, Philadelphia, Boston, Cleveland, Detroit and other cities. Its membership is taken from the ranks of the most prominent practitioners in different parts of the United States.

Each chapter is known as a vertebra. The Chicago chapter, being the first organized, is called the "Prime Vertebra." Its high officer is known as the "encephalon," and its next highest officer is the "medulla." Its other officers are named for other parts of the human body.

The members of the fraternity must undergo a preparation or apprenticeship of four years before they are admitted to full knowledge of its weird rituals. During this period each must study some physiological or medical problem entirely original in his own mind. If his faith and perseverance in the ironical rules of the society are deemed doubtful he does not become a part of the "body." If the showing is complimentary the fantastic ceremonies are administered. The society is divided into three "degrees," through which its members must pass. They are fraternity, autopsy and cremation.

Dr. P. M. Cliver, who lives in Chicago, is the supreme encephalon or national head of the Ustionians.

This strange fraternity had its inception at Hahnemann college, in Chicago, in 1878. During the thirty-one years of its existence its weird teachings and practices have been a profound secret. Its members at the end of their probationary period take an oath that silences their tongues forever.

The life on this earth is enjoyed to its utmost by them. At the end their colleagues, attired in long white surgical gowns, gather about the bier on which lie the earthly remains of their friend. The spirit they know has departed, and the clay that is left is given over entirely to science. Their theories are augmented by this gruesome gift. When they have finished the rites are said. At a crematory all that remains is given over to the flames. The doctor that was is reduced to a handful of dust.

Dr. Fred W. Wood, former supreme encephalon, acknowledged that the fraternity was for the purpose of autopsy and cremation. "We believe in three degrees," said Dr. Wood. "They are fraternity, which means the real fellowship on this earth; autopsy after death, which helps all mankind, and cremation, which puts an end to the earthly shell that remains after the spirit has flown."

"What is done at the autopsy?" was asked.

"I cannot say," replied Dr. Wood. "Our oaths are solemn. What we do to the body is all in the interest of science. It does no harm, and it advances our knowledge."

"What is the fraternity's belief in regard to cremation?" was asked.

"We believe that cremation is proper. The body is but clay, and sooner or later it becomes but a handful of dust. When it is given over to the fire all is ended. The translation of 'Ustion' means fire."

## KEIRAN RELEASED ON BAIL

Arrested on Charge That He Was Fugitive From Justice.

New York, Jan. 27.—Patrick J. Keiran, vice president of the Fidelity Funding company, whose affairs are in the hands of receivers, was arrested at his home here on the ground that he was a fugitive from justice and that he was wanted in Pittsburgh, where charges of grand larceny had been lodged against him. Keiran was taken to police headquarters, but had been locked up only a few hours when word came from Superintendent of Police McQuade of Pittsburgh that Keiran had given bonds there and requesting that he be released. This was done, but before Keiran left headquarters he was served with an order to appear in the supreme court on Jan. 29 to be examined regarding the affairs of the Fidelity Funding company.

## Arguments in Libel Case Ended.

Guthrie, Okla., Jan. 27.—Arguments have been concluded in the case of Scott MacReynolds, arrested by order of Governor Haskell while he was collecting evidence for W. R. Hearst in defense of the governor's charges of libel, and Judge Strang announced that he would hand down his opinion Feb. 8.

## ADVOCATED BY LABOR PARTY

Matters of Importance to British Workers Discussed.

Portsmouth, Eng., Jan. 27.—The ninth annual meeting of the Labor party of Great Britain, which assembled here today, will discuss matters of importance to the working people of this country and to those in other lands who are interested in measures looking to their advancement. The Labor party has thirty-one representatives in parliament and it was largely due to their efforts that the old age pension law, which went into effect Jan. 1, was enacted.

Among the proposals to be discussed at the meeting or convention, as it would be called in the United States, is one fixing the old age pension limit at fifty-five years and granting pensions to physically incapacitated workers at the age of thirty. To provide the necessary funds it is proposed that an income tax of 2 shillings in the pound be levied on incomes of £20,000, 3 shillings on incomes of £30,000 and corresponding rates up to £200,000, beyond which all incomes shall be confiscated to the state.

James R. MacDonald, member of parliament for Leicester, the secretary of the Labor party, will submit resolutions including demands for the special taxation of state conferred monopolies, increased estate and legacy duties and a substantial beginning of the taxation of land values. Other resolutions will demand state insurance for workmen, the maintenance of school children, a universal seven-hour day, the nationalization of land, railways, mines and hospitals, a minimum universal wage of 30 shillings a week and a universal adult franchise for males and females.

## WATERWAYS COMMISSION

Measure Introduced in the House to Create One.

Washington, Jan. 27.—A step toward the carrying out of the plans agreed upon by the recent waterways conference in this city was taken when Representatives Randall of Louisiana, Moore of Pennsylvania, Shirley of Kentucky and Bartholdt of Missouri jointly introduced a bill for the creation of a waterways commission and another for a bond issue of \$500,000,000 for the improvement of waterways.

The former bill provides that the commission shall consist of four senators, selected by the vice president, four representatives, selected by the speaker, and seven others, to be appointed by the president, of whom two shall be members of the engineer corps of the army; two civil engineers, two citizens of experience in transportation and one other citizen.

The bond bill limits the amount to be issued in any fiscal year to \$50,000,000.

## Victory for Forest Advocates.

Washington, Jan. 27.—Advocates of forest reserves in the White mountains of New England and the Appalachian mountains of the Southern states consider that they won a significant victory when the house committee on agriculture by the close vote of 9 to 8 agreed to make a favorable report to the house on the Weeks bill having the creation of these reserves in view.

## Donnelly's Nomination Confirmed.

Washington, Jan. 27.—The senate has confirmed the nomination of Samuel B. Donnelly of New York to be public printer. The senate committee on printing investigated charges that upon assuming the management of the government printing office Mr. Donnelly had discharged a number of nonunion men without cause. The charges were found to be without foundation.

## RAINEY MAKES BITTER ATTACK

Delivers a Sensational Speech in the House.

## NORTHWESTERN MEN REPLY

Messrs. Stevens of Minnesota and Kusterman of Wisconsin Express Disapproval of the Remarks of the Congressman From Illinois, Who Scored William Nelson Cromwell and President of Panama.

Washington, Jan. 27.—A sensational and bitter attack on William Nelson Cromwell and President Obaldia of Panama and others by Mr. Rainey of Illinois was made in the house of representatives. The postoffice appropriation bill was under consideration, but Mr. Rainey spoke under leave of general debate and he was unsparring in his charges of corruption and fraud against the persons named. At the conclusion of his speech, which consumed over an hour and a half, Messrs. Stevens of Minnesota and Kusterman of Wisconsin expressed their disapproval of his remarks and entered a defense of the accused.

Incensed at the remarks of the Illinois member, Mr. Stevens of Minnesota declared it to be "extremely regrettable that any member of this house feels called upon to rise in his place and slander the ruler of a friendly republic and defame the administration of his own government." He proceeded that far when he was called to order by Mr. Shackelford of Missouri, who objected to the use of the word "slander."

The chair admonished Mr. Stevens, who promised to keep within the rules. He argued that it was no business of the American government what any other government did with its persons or its property, "provided it does not affect our interests."

"It is our business," he said, "to look after our own citizens and our own administration." He declared that there was no foundation in fact for the statement that there was any interference by Secretary of War Taft or any officials of the United States with the Panama elections any more than was involved in the keeping of order there. He also attempted to refute the statements of Mr. Rainey regarding President Obaldia, and declared that he was not without a political party.

The house passed a joint resolution making Feb. 12, 1909, which marks the one hundredth anniversary of the birth of Abraham Lincoln, a legal holiday in the territories and District of Columbia.

When the house adjourned the post-office bill was still pending.

## Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this dreadful disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made, a perfected, dependable prescription. Without that last ingredient, I successfully treated many cases of Rheumatism; but now, at last, I can cure all curable cases of this heretofore deadly disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

## To Awaken the Liver

Cold tongue, aching head, biliousness, indigestion, constipation alternating with looseness of the bowels, feelings of depression and ill-temper.

These arise from sluggish torpid action of the liver.

Relief comes after the use of one of Dr. A. W. Chase's Kidney and Liver Pills and cure with a few weeks' use of this great regulator of the liver.

With the liver right there is usually no disturbance of the digestive system or bowels. Therefore get at the cause of trouble by awakening the liver to action by use of Dr. A. W. Chase's Kidney and Liver Pills.

Mr. Z. M. Talbot, Port Chester, Md. writes:—"Having used Dr. A. W. Chase's Kidney and Liver Pills for a number of years I consider them the best liver regulator I ever used. I cheerfully recommend them to anyone afflicted with headache and other symptoms of a disordered liver."

## ASSAULTS STILL CONTINUE

Women of Dayton, O., Afraid to Venture Out at Night.

Dayton, O., Jan. 27.—The epidemic of criminal assault in this city continues. In a portion of the city far removed from the scenes of the other recent attacks, two girls whose names cannot be learned were stopped and seized by an unknown man, but both fought desperately in defense of each other and their assailant was driven off. They ran down Dutoit street in the East End, and met Mrs. David Wirth, a widow, and to her related their experience. Mrs. Wirth continued on her way and when near the scene of the first assault she was confronted by a man answering the description given by the girls. Mrs. Wirth, who is an unusually small but plucky woman, struck the man over the head with her handbag as he attempted to seize her by the throat, and in the confusion which ensued made her escape.

The two girls who were assaulted defended themselves with hatpins. The number of women on the streets alone has decreased amazingly since the murder of the Forschner girl and the female population of Dayton is in a constant state of terror.

Still another attempt at assault has been reported from the business section of the city, but names cannot be learned.

The bride's frock will be of white liberty satin, with yoke and sleeves of duchess lace and a court train. She will carry a bouquet of lilies of the valley and white orchids.

Owing to the fact that Miss Coleman is a Roman Catholic, while her fiancé is a member of the Presbyterian church, the ceremony will be performed at the residence of the bride's parents, 126 East One Hundred and Twenty-second street, New York. The drawing room will be a bower of daffodils (the union flower) and maidenhead fern, and the dining room will be decorated with the same flowers.

The wedding cake will be distributed to the guests in miniature ballot boxes, which will be inscribed below the intertwined initials of the bride and bridegroom with the legend "Votes For Women." In the center of the table reserved for the bridal party will be a full sized ballot box, which will contain special gifts from the bride to her ushers.

The suffragettes will attend in a body, and all of them will wear military sashes fastened with the famous yellow buttons with black lettering. Both Mr. and Mrs. Hardenbrook will wear buttons in conspicuous positions upon their outer garments when they "go away," and buttons and yellow confetti will be thrown after them instead of the traditional rice and old shoes. Buttons will also be attached to the yellow streamers floating from the maid of honor's bouquet of yellow daffodils.

New World's Bowling Record.

The world's bowling record for tournament scores was recently broken at the Ohio state bowling tournament, held in Columbus, the Krollman five man team from Cincinnati rolling a total of 2,931. This was four points better than the record of the Bonds five man team of Columbus, made at the tournament at Cincinnati last year.

## ODD CHICAGO SOCIETY

Doctors Have Had Cremation Fraternity For 31 Years.

## KEPT THEIR SECRET WELL.

Organization Only Recently Heard of Has Chapters in Many Cities and Originated in Chicago—Members Give Their Bodies to Science and Then to Flames.

A strange secret of thirty-one years' standing was recently revealed when more than a score of prominent Chicago physicians and surgeons admitted that they were members of the Ustion fraternity, a society having for its object the dissection of the bodies of its members after death and cremation of the remains.

This weird fraternity, to which only members of the medical profession are admitted, is of national scope. Its headquarters are in a well furnished clubhouse at 3232 Lake Park avenue, Chicago.

Chapters exist in New York, Philadelphia, Boston, Cleveland, Detroit and other cities. Its membership is taken from the ranks of the most prominent practitioners in different parts of the United States.

Each chapter is known as a vertebra. The Chicago chapter, being the first organized, is called the "Prime Vertebra." Its high officer is known as the "encephalon," and its next highest officer is the "medulla." Its other officers are named for other parts of the human body.

The members of the fraternity must undergo a preparation or apprenticeship of four years before they are admitted to full knowledge of its weird rituals. During this period each must study some physiological or medical problem entirely original in his own mind. If his faith and perseverance in the ironclad rules of the society are deemed doubtful he does not become a part of the "body." If the showing is complimentary the fantastic ceremonies are administered. The society is divided into three "degrees," through which its members must pass. They are fraternity, autopsy and cremation.

Dr. P. M. Oliver, who lives in Chicago, is the supreme encephalon or national head of the Ustionians.

This strange fraternity had its inception at Hahnemann college, in Chicago, in 1878. During the thirty-one years of its existence its weird teachings and practices have been a profound secret. Its members at the end of their probationary period, take an oath that silences their tongues forever.

The life on this earth is enjoyed to its utmost by them. At the end their colleagues, attired in long white surgical gowns, gather about the bier on which lie the earthly remains of their friend. The spirit they know has departed, and the clay that is left is given over entirely to science. Their theories are augmented by this gruesome gift. When they have finished the rites are said. At a crematory all that remains is given over to the flames. The doctor that was is reduced to a handful of dust.

Dr. Fred W. Wood, former supreme encephalon, acknowledged that the fraternity was for the purpose of autopsy and cremation. "We believe in three degrees," said Dr. Wood. "They are fraternity, which means the real fellowship on this earth; autopsy after death, which helps all mankind, and cremation, which puts an end to the earthly shell that remains after the spirit has flown."

"What is done at the autopsy?" was asked.

"I cannot say," replied Dr. Wood. "Our oaths are solemn. What we do to the body is all in the interest of science. It does no harm, and it advances our knowledge."

"What is the fraternity's belief in regard to cremation?" was asked. "We believe that cremation is proper. The body is but clay, and sooner or later it becomes but a handful of dust. When it is given over to the fire all is ended. The translation of 'Ustion' means fire."

## KEIRAN RELEASED ON BAIL

Arrested on Charge That He Was Fugitive From Justice.

New York, Jan. 27.—Patrick J. Keiran, vice president of the Fidelity Funding company, whose affairs are in the hands of receivers, was arrested at his home here on the ground that he was a fugitive from justice and that he was wanted in Pittsburgh, where charges of grand larceny had been lodged against him. Keiran was taken to police headquarters, but had been locked up only a few hours when word came from Superintendent of Police McQuade of Pittsburgh that Keiran had given bonds there and requesting that he be released. This was done, but before Keiran left headquarters he was served with an order to appear in the supreme court on Jan. 29 to be examined regarding the affairs of the Fidelity Funding company.

Arguments in Libel Case Ended.

Guthrie, Okla., Jan. 27.—Arguments have been concluded in the case of Scott MacReynolds, arrested by order of Governor Haskell while he was collecting evidence for W. R. Hearst in defense of the governor's charges of libel, and Judge Strang announced that he would hand down his opinion Feb. 8.

## ADVOCATED BY LABOR PARTY

Matters of Importance to British Workers Discussed.

Portsmouth, Eng., Jan. 27.—The ninth annual meeting of the Labor party of Great Britain, which assembled here today, will discuss matters of importance to the working people of this country and to those in other lands who are interested in measures looking to their advancement. The Labor party has thirty-one representatives in parliament and it was largely due to their efforts that the old age pension law, which went into effect Jan. 1, was enacted.

Among the proposals to be discussed at the meeting or convention, as it would be called in the United States, is one fixing the old age pension limit at fifty-five years and granting pensions to physically incapacitated workers at the age of thirty. To provide the necessary funds it is proposed that an income tax of 2 shillings in the pound be levied on incomes of £20,000, 3 shillings on incomes of £30,000 and corresponding rates up to £200,000, beyond which all incomes shall be confiscated to the state.

James R. MacDonald, member of parliament for Leicester, the secretary of the Labor party, will submit resolutions including demands for the special taxation of state conferred monopolies, increased estate and legacy duties and a substantial beginning of the taxation of land values. Other resolutions will demand state insurance for workmen, the maintenance of school children, a universal seven-hour day, the nationalization of land, railways, mines and hospitals, a minimum universal wage of 30 shillings a week and a universal adult franchise for males and females.

## WATERWAYS COMMISSION

Measure Introduced in the House to Create One.

Washington, Jan. 27.—A step toward the carrying out of the plans agreed upon by the recent waterways conference in this city was taken when Representatives Randall of Louisiana, Moore of Pennsylvania, Shirley of Kentucky and Barthold of Missouri jointly introduced a bill for the creation of a waterways commission and another for a bond issue of \$500,000,000 for the improvement of waterways.

The former bill provides that the commission shall consist of four senators, selected by the vice president, four representatives, selected by the speaker, and seven others, to be appointed by the president, of whom two shall be members of the engineer corps of the army; two civil engineers, two citizens of experience in transportation and one other citizen. The bond bill limits the amount to be issued in any fiscal year to \$50,000,000.

## Victory for Forest Advocates.

Washington, Jan. 27.—Advocates of forest reserves in the White mountains of New England and the Appalachian mountains of the Southern states consider that they won a significant victory when the house committee on agriculture by the close vote of 9 to 8 agreed to make a favorable report to the house on the Weeks bill having the creation of these reserves in view.

## Donnelly's Nomination Confirmed.

Washington, Jan. 27.—The senate has confirmed the nomination of Samuel B. Donnelly of New York to be public printer. The senate committee on printing investigated charges that upon assuming the management of the government printing office Mr. Donnelly had discharged a number of nonunion men without cause. The charges were found to be without foundation.

## RAINEY MAKES BITTER ATTACK

Delivers a Sensational Speech in the House.

## NORTHWESTERN MEN REPLY

Messrs. Stevens of Minnesota and Kusterman of Wisconsin Express Disapproval of the Remarks of the Congressman From Illinois, Who Scored William Nelson Cromwell and President of Panama.

Washington, Jan. 27.—A sensational and bitter attack on William Nelson Cromwell and President Obaldia of Panama and others by Mr. Rainey of Illinois was made in the house of representatives. The postoffice appropriation bill was under consideration, but Mr. Rainey spoke under license of general debate and he was unsparring in his charges of corruption and fraud against the persons named. At the conclusion of his speech, which consumed over an hour and a half, Messrs. Stevens of Minnesota and Kusterman of Wisconsin expressed their disapproval of his remarks and entered a defense of the accused.

Inclosed at the remarks of the Illinois member, Mr. Stevens of Minnesota declared it to be "extremely regrettable that any member of this house feels called upon to rise in his place and slander the ruler of a friendly republic and defame the administration of his own government." He proceeded that far when he was called to order by Mr. Shackelford of Missouri, who objected to the use of the word "slander."

The chair admonished Mr. Stevens, who promised to keep within the rules. He argued that it was no business of the American government what any other government did with its persons or its property, "provided it does not affect our interests."

"It is our business," he said, "to look after our own citizens and our own administration." He declared that there was no foundation in fact for the statement that there was any interference by Secretary of War Taft or any officials of the United States with the Panama elections any more than was involved in the keeping of order there. He also attempted to refute the statements of Mr. Rainey regarding President Obaldia, and declared that he was not without a political party.

The house passed a joint resolution making Feb. 12, 1909, which marks the one hundredth anniversary of the birth of Abraham Lincoln, a legal holiday in the territories and District of Columbia.

When the house adjourned the post-office bill was still pending.

## Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn boy growing back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.

In Germany—a Chemist in the City of Darmstadt—found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many cases of Rheumatism; but now, at last, I can firmly cure all curable cases of this heretofore much dreaded disease. These said, the granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer with out help. We sell, and in confidence recommend

## ASSAULTS STILL CONTINUE

Women of Dayton, O., Afraid to Venture Out at Night.

Dayton, O., Jan. 27.—The epidemic of criminal assault in this city continues. In a portion of the city far removed from the scenes of the other recent attacks, two girls whose names cannot be learned were stopped and seized by an unknown man, but both fought desperately in defense of each other and their assailant was driven off. They ran down Tutolt street in the East End, and met Mrs. David Wirth, a widow, and to her related their experience. Mrs. Wirth continued on her way and when near the scene of the first assault she was confronted by a man answering the description given by the girls. Mrs. Wirth, who is an unusually small but plucky woman, struck the man over the head with her handbag as he attempted to seize her by the throat, and in the confusion which ensued made her escape.

The two girls who were assaulted defended themselves with hatpins. The number of women on the streets alone has decreased amazingly since the murder of the Forschner girl and the female population of Dayton is in a constant state of terror.

Still another attempt at assault has been reported from the business section of the city, but names cannot be learned.
